

Featuring ProKure1 Odor & Pathogen Control System

CLARION_{LLC}

Stop Letting Odor Eat Into Your Bottom Line.

Now Available: Pro Grade Odor Control Services for Institutions.

Uncontrolled odor costs managers of institutional of commercial and residential real estate time and money. Clarion delivers advanced professional grade odor elimination to institutional real estate managers. With Clarion, you get quick and effective odor control solutions through qualified restoration pros to make your real estate occupation-ready with minimal time and disruption.

Advances Odor & Pathogen Control Science

Clarion uses the ProKure1 Odor & Pathogen Control System – a patented ClO_2 -based system that delivers significantly superior results on more types of odor and pathogen control jobs than ever before. Nothing is more effective than ClO_2 (chlorine dioxide) for controlling odors. Guaranteed.

Ecologically Safe

Not another bleach or harsh chemical, ClO_2 has been used for public water system purification and other large scale projects for decades. Now, ClO_2 is safe and cost-efficient for any size job. There are no carcinogens or poisonous residuals. And it leaves no harmful chemical footprint.

Let Us Do The Work

Through our licensed network of restoration professionals, Clarion provides turn-key odor control services. You'll have the confidence of knowing you're getting the most advanced odor control available. And your team is freed from distractions.
